EXPERIENCE

Founder

June 2026 – Present

OpenLabs

Remote

- Founded OpenLabs; built interactive landing page and HRMS portal; shipped College Network, serving 1000+ students with in-app chat counseling and driving \$5,000 in revenue.
- Closed client deals for websites, CRMs, and automations; launched open-source ecosystem with Snap-Form monorepo and 5 active contributors.

Open Source Contributor

AOSSIE Org

Remote

- Improved local development infrastructure by containerizing React frontend and Go backend with Docker Compose; resolved UI issues and shipped SEO and PWA manifest.
- Improved client UX with toast notifications; built a comprehensive Go test suite; fixed Wayland cursor operations on Ubuntu.

Full Stack Developer

Oct. 2025 – May 2026

Novastack Solutions

Remote

- Worked on Nova Health Care ecosystem (user, provider, admin apps) using React Native and React.js; built Novastack Solutions landing page and achieved #1 Google ranking for Novastack Solutions.
- Developed Odefi, a 95% on-chain decentralized staking platform on BNB Chain; implemented SSR, SEO, Next.js client, and admin panel with 5% server dependency.

Full Stack Developer Intern

July 2025 – Sept. 2025

BlockSolutions Labs

Remote

- Built whole new frontend for Splosh; deployed on AWS (1 server, 2 clients) with CI/CD pipeline and Auto Scaling Groups, 400ms server response time for static pages and built admin panel.

Frontend Development Intern

Aug. 2024 – Oct. 2024

E-Cell IIT Bombay

Remote

- Redesigned Campus Ambassador dashboard using React.js and Tailwind CSS; improved UX and performance.
